👤 WHO I AM

A dedicated, hardworking, self driven team mate who is looking for web development opportunities. Harnessing a positive attitude and wide skill set in addition to being a vocational graduate as a .NET Full Stack Developer. I possess 11 years of work force history primarily as an educator and team leader. Proven ability to establish and maintain excellent communication and relationships with clients. Committed to utilizing my skills to further the mission of a company.

🎓 EDUCATION

.NET Full Stack Developer, Centriq Training, Kansas City

January 2021 — April 2021

March 2021 — March 2021

★ INDEPENDENT DEVELOPMENT PROJECTS

Small Business Project

A static website for a mock business to promote educational classes of a specific subject. Using strictly custom HTML5 and CSS3 with restrictions on Bootstrap. This will have HTML pages for Contact, Class Schedules, Leaderships, and About Us styled with CSS.

Personal Portfolio Site

jordanhickman.com/; A self-made site to portray coding achievements in the Full Stack Development field. This site contains portfolio projects and resume and was created using JavaScript, jQuery, HTML5, and CSS3.

Store Front

Created a secure application for managing product data. Application is built to simulate an online store front with a shopping cart. Administrators have the ability to manage product, category and vendor data. Using SQL for databases.

C# Dungeon Console Application

Created a Windows console application text-based Dungeon game. Using C# fundamentals, I created this by demonstrating logic, polymorphism, inheritance, fully qualified construction of classes, and a passion for early computer games.

Final Project

Created a secure data driven ASP.NET MVC application for design through deployment for managing the tracking and organization of hardware and software within a company. Administrators have the ability to manage employee, department data and all details relating to assigned hardware.

March 2021 — March 2021
